SHUTTERS

The logo for Anyhoo Shutters is positioned on the left side of the page. It features the word "Anyhoo" in a large, bold, red serif font, with a stylized red swoosh underlining the "y". Below "Anyhoo", the word "shutters" is written in a smaller, blue, italicized serif font. The background of the left half of the page is a light blue-grey color with a pattern of white geometric shapes, including triangles and parallelograms, creating a modern architectural feel.

value

For 30 years, the parent company of Anyhoo Shutters has provided function and fashion to homes around the world as the largest manufacturer of window coverings. We uphold this tradition with our versatile line of best-in-class custom interior shutters. This fine window furniture is manufactured with many unique features that make it the most lasting and beautiful shutter collection crafted today.

Value in EVERY DETAIL

For centuries, shutters have been prized as fine window furniture and a testament to a homeowner's discerning style and sophistication. Shutters not only provide design, privacy, and light control options, they can also enhance the value of a home. Like any home investment, only shutters of exceptional quality will provide long-term value and increase appreciation.

At Anyhoo Shutters we feel the best shutter, whether hardwood or composite, is the result of meticulous management of each stage in its creation. Every step: research and development, product design, raw materials sourcing, handcrafting, quality control, and even packaging are carried out with one goal. We strive to bring you best-in-class shutters with matchless quality, durability, and long-term value in your investment.

the character of ^{PLUS®}biowood shutters HARDWOOD FOR MDF PRICE!

Good quality timber for shutters is not cheap, but ^{PLUS®}biowood Shutters give you all of the benefits without the price tag. ^{PLUS®}biowood Plantation Shutters are hand-crafted in our workshops in whichever style, colour, and frame design that you wish. Every ^{PLUS®}biowood Plantation Shutter undergoes a series of quality checks at every stage of manufacturing.

You can design your own ^{PLUS®}biowood Plantation Shutters by mixing and matching frame designs and panel colours to create shutters that are uniquely ^{PLUS®}biowood. The choice of decorating possibilities with ^{PLUS®}biowood Plantation Shutters is virtually endless. ^{PLUS®}biowood Shutters are available in 20 paint colours and a wide range of louvre sizes, but the biggest benefit is the fact you can hinge 3 panels together to provide a shutter solution ideal for large windows and expanses with the hardwood panels keeping the weight of shutters down to help prevent bowing and warping.

Made to order shutter styles

WITH ENDLESS DESIGN POSSIBILITIES

biowood PLUS® Shutters come in a range of tilt rods; the rod that is fixed to all the louvres and enables them to be opened and closed at once, including offset tilt rods that can be placed to the left or right of the shutter panel, central tilt rods in the centre of the shutter panels, hidden tilt rods recommended for stability and strength and concealed tilt rods that are integrated into the stile and therefore not visible from the inside.

Personalization

CHOICE OF COLOURS

This ensures the long-term integrity of every shutter.

THE PANELS ARE MANUFACTURED FROM PREMIUM HARDWOODS, THE WOOD OF PAULOWNIA TREE.

Wooden Plantation Shutters

Everything about your **biowood^{PLUS}** Plantation Shutters can be customised to your preference. Your choice of movement, colour, shape, hardware, and finish.

CONCEALED TILT

Easily tilts a whole panel of louvres without a tilt rod.
Provides tighter closure, a wider view, easy cleaning, and a more streamlined appearance.

CUSTOM COLOR MATCH

Complement your room and windows with our custom colour match.

WIDE PANEL CAPABILITY

Provides fewer panels and a wider view.

SPECIAL SHAPES

Available including circles, arches, angles and French doors.

It is also our most eco timber as its grown to full height in only 8 years and harvested like wheat.

It is grown to make shutters thereby locking up carbon better than the Kyoto treaty does.

The luxury of ANYHOO Supreme[®] SHUTTERS

You deserve the luxury of Supreme[®]

There is nothing quite like the effect of traditional natural wood in the home. Our **Supreme[®]** Wooden Shutters can be stained and polished like a piece of antique furniture and are also offered in a range of colours. They can be built to fit any type of window configuration and there is a wide choice of frame styles. Top and bottom rails can be hand-carved by our craftsmen, and you have a choice of handles and hinges from which to select. Every shutter that we build is subject to ongoing quality control checks – 25 of them in all – at every stage of the manufacturing process. This ensures that when we install your shutters they will fit perfectly and that your windows will have a look that is uniquely yours.

Not only do our **Supreme[®]** Wooden Shutters enhance the quality of your life and environment in which you live, you can be sure that they will continue to do so. They are built to last a lifetime. ANYHOO SHUTTERS - BEST MONEY CAN BUY!

Supreme®

The strength of **ANYHOO EARTH® SHUTTERS**

The **STRONGEST** option of **SHUTTER** material

EARTH® Shutters are available in 6 paint colours and a wide range of louvre sizes, but the biggest benefit is the fact that they are best suited for outdoor shutters, which is resistant to rain and sunshine.

In addition to their unique design, **EARTH®** Shutters reduce heat losses and minimise heating costs. They also provide comprehensive protection even against burglary and improve the indoor climate, even in summer. They are notable for the variety of designs and features.

EARTH® Shutters are manufactured entirely from aluminium and can be fitted to almost any window and door and the louvres are fully adjustable. Each unit is tailored to ensure a precision fit and perfect functionality. Aluminium shutters will withstand the weather extremes, from sun and snow, to seaspray and all but the fiercest storms. They give you the versatility to control privacy, natural airflow and shade while still allowing you to enjoy the view.

Earth®

Aluminium Security SHUTTERS

Construction features

MASTER CRAFTSMANSHIP

Safety comes first, it's true, but there is no reason it can't be elegant and sturdy.

MANUFACTURED FROM ALUMINIUM

They are manufactured entirely from aluminium and can be fitted to almost any window and door and the louvres are fully adjustable. Each unit is tailored to ensure a precision fit and perfect functionality.

MECHANISM

Supplied with hinges, brackets and divider rail. Tracks for smooth operation.

LIGHT CONTROL

Yes. Light control depends on the louvres tilt when closing/opening.

PRIVACY CONTROL

85% - 100% depending on angle of the louver.

RESILIENCE

Aluminium shutters will withstand the weather extremes, from sun and snow, to seaspray and all but the fiercest storms. They give you the versatility to control privacy, natural airflow and shade while still allowing you to enjoy the view.

THE STRONGEST OPTION OF SHUTTER MATERIAL WE HAVE IN OUR RANGE AND ARE KNOWN FOR THEIR IRON FISTED SECURE NATURE

Earth®

The durability of

ANYHOO eco\wood® SHUTTERS

By incorporating our very best ideas, design, and knowledge, we give you **eco\wood®**. When investing in **eco\wood®** Plantation Shutters you want to be certain that you are getting shutters that will, in effect, last you a lifetime. Certainly, at some future time you might decide to sell your home and move on, but you want your shutters to look as good as the day they were installed and, indeed, add to the value of your home. **eco\wood®** Plantation Shutters achieve exactly this. They are created by craftsmen using the U-PVC co-polymer which is the same material that is used in car parts, home appliances, and motorcyclists' crash helmets. If it can protect a motorcyclist, then you can be certain that it is tough.

Tough, but nonetheless stunning to look at, and adding sophistication and elegance to your windows. Wide panel capability means that fewer panels are needed, which provides a correspondingly bigger and streamlined view of the outside. **eco\wood®** Plantation Shutters give you the best of all worlds.

eco\wood®

Tough and Elegant SHUTTERS

Construction features

CREATED BY MASTER CRAFTSMEN

Every shutter is hand-built by master craftsmen who have years of experience.

TOUGH MATERIALS

U-PVC co-polymers will withstand not only boisterous handling by children or pets, but accidental damage, damp, heat, and fading and yellowing from ultra-violet light.

MORTISE AND TENON JOINTS

The strongest joints known to man.

RECESSED MAGNETS

Streamlined appearance, no visible clunky bolt-on magnets.

STAINLESS STEEL FASTENERS

Resistant to rust and corrosion.

THE PERFECT FINISH

A choice of the most beautiful colours to complement every window and every room

WARRANTY

Limited lifetime warranty as standard.

Evolved Customization

eco\wood® Custom Plantation Shutters offer the best of all worlds. With panels up to 850mm wide you get far better through vision, and a choice of a palette of 3 different white paints to complement your room and your lifestyle. **eco\wood®** Plantation Shutters can quite literally last a lifetime – and probably even longer. You will be able to hand your new shutters down to your children in years to come.

Panels up to 850mm wide for wider views and a more streamlined profile;
100% Waterproof, industry leading color-fastness;
Moisture resistant and will not fade, yellow, warp, scratch, crack, or break, under normal conditions;
Lightweight material – a breeze to clean;
Built tough with added resistance to denting, UV-inhibiting, resist fading;
Limited lifetime warranty as standard.

Personalization
